Article number: 10082

Description:

This small pen enables you to write and draw or to simply set marks with your CNC machine. The pen has a \varnothing 20 mm clamping surface. It can be clamped with our matching \varnothing 43 mm - \varnothing 20 mm adapter. The ball pen refill is spring-loaded and thus creates a steady type face. The spring power can be adjusted on the handscrew. Suitable for standard ball pen refills.
